# You're Getting Married and Your Guests Include Children, Here's Some Critical Information You Need To Know....

Little Angel will make your day as special, and stress free as possible, so you can enjoy every moment, knowing that your little guests are safe, and having the time of their lives...

## Watching Over Your Little Angels

A one stop service that goes that little bit further for you, your friends, and family. Your wedding is one of the most important days of your life, and we will be there to ensure your little angels enjoy it to the max, without causing problems for either you or their families.

Our “Guardian Angels” will transform a room or space for all of your Little Angels, to provide a safe and fun environment, allowing you to enjoy your wedding stress free, without any interruptions. Our crèche will provide everything needed to protect and watch over your young guests, and keep them well entertained. They will have their own celebration, with everything from toys and craft ideas through to face painters and childrens entertainers.

The parents of your younger guests will be able to drop their children off with our Guardian Angels when they arrive at the venue. They will fill in a short booking-in form, which will include the parents mobile number, to keep in contact should it be necessary, plus a secret password which must be given by the person collecting the child. This ensures full security at all times. The parents, in return will receive a card with the supervisors mobile number. Even though the children will remain in the designated area, it is so important that communication is possible in any situation, and for any reason.

## For Your Peace Of Mind

Our “Guardian Angels” are all fully approved to a very high standard. The checks we complete, consist of:

- A personal in-depth “one to one” interview with a member of our experienced team
- Written and verbal references are taken
- Fully enhanced police checks are completed, or verified if already held
- Qualification and first aid certificates are verified where possible.
- We check and copy identification and utility bills as proof of identity and address

Most of our staff have been known to us for a long time, and so we can personally vouch for their professionalism, and experience with children of all ages. If you would like to complete any further references on our staff personally, we can provide this information on request.
